The HP Compaq 6820s Notebook PC delivers a fresh new look with a wealth of integrated features at a price you'll appreciate. With ATI Mobility Radeon X1350 dedicated graphics, a 17-inch diagonal widescreen display and a starting weight of only 2.95 kg, your work will come to life. A full-sized keyboard with an integrated numeric keypad gives desktop-equivalent familiarity. The HP Compaq 6820s helps you stay connected where you need to work by offering Wi-Fi Certified WLAN, so you can access your e-mails or the Internet at work, at home and at your favorite hotspots. Integrated Bluetooth technology provides wireless short-range communication or connectivity between other Bluetooth devices such as printers and mice. Features such as an integrated Secure Digital (SD) Card reader help boost your productivity while maximizing simplicity. With over 95,000 hours of testing, the HP Total Test Process helps ensure that your notebook will withstand a wide range of work environments and reliability features.
